TSxpress

TSxpress is a fully integrated Windows based software suite designed to manage the transfer of data from Seven TranScan temperature recorders and provide comprehensive and detailed data analysis and management reporting facilities.

For all Seven
TranScan®
Vehicle
Temperature
Recorders.

Features include:

- Integrated download from all types of Seven TranScan® recorders or via Data Collection Unit (DCU)
- Automatic Download from Seven TranScan® Automatic Data Gatherer (ADG)
- Smooth scrolling display of recorded temperature and status (on/off) input data
- Graphical or numeric list presentation of data
- Powerful exception reporting tools
- Comprehensive HTML Help facilities
- Multi language operation
- Data Management Software

Summarise all relevant data in one screen

Supplied as a download for quick and simple installation, TSxpress Data Management Software provides a host of tools to allow users of Seven TranScan® temperature recorders to store and analyse their data.

Summarise all relevant data in one screen

consider corrective action without the need to study endless lists of data from all your fleet.

The minimum PC specification required to operate TSxpress software is as follows:

- Pentium processor.
- Windows NT/2000/XP/7/32&64 bit operating systems.
- 128Mb-512Mb RAM minimum (according to operating system).
- 1GB hard drive.
- CD-ROM drive or internet connection.
- 800 x 600 resolution colour monitor (minimum) 1024 x 768 preferred.
- Serial port required for download from TranScan[®] DCU or ADG.
